

BEST FEATURES

One-Click Connect

Connect to a torque sensor with a single click of a button, using a high-speed Wi-Fi connection.

Live Data

See torque sensor data in real-time in a format of your choosing: graphs, dials or numbers. Simply flip through the screen to choose the one that best suits your application.

Real-Time Logging

Datum Connect also allows you to log your data for further analysis. You can easily start and stop the logging, and email the logs direct to your PC/laptop.

Configurable Analogue Outputs

Easy configure analogue outputs via the Settings tab of the app: 12+/-8mA, 0-5V, 0-10V, 4-20mA, +/-5V, +/-10V.

High & Low Alarms

Set high and low alarms to be notified about breaching upper and lower limits during testing. Visual and audible thresholds are simply configured via the app.

Instant Support

No more phone calls, no more emails. Contact Datum support team straight through the app and easily share your config data with one click of a button.

Datum torque sensors/transducers.

DATUM CONNECT

*Easy to Connect.
Easy to Configure.
Easy to Use.*

*Real-Time Torque Sensor Data
Dynamically on Your Mobile Device*

One-Click Connect

No more firmware, downloads and set up, Datum Connect allows simple connection to a torque sensor with a single click of a button, using a high-speed Wi-Fi network.

WHY DATUM CONNECT

Adjustable Live View

Datum Connect is compatible with both IOS and Android devices. You can see the data in three different formats: dials, graphs or numbers. Simply flip through them to choose the one that best suits your application. Plus, the screen is adjustable, so you can see your data in both portrait and landscape views.

Easy Configuration

Various outputs, calibration values, units of measurements, high & low alarms - all of this can be easily configured in the Settings of the Datum Connect app.

Logging & Email

Logging your torque sensor data couldn't be easier. Start logging, stop logging, rename or view your log. You can even email a log or multiple logs to your PC with a single click of a button.

Instant Support

Simply submit a ticket from the Datum Connect app, which automatically includes the configuration of your device, and a representative of our support team will review it and revert promptly to you.
